

The physics of the interstellar medium MN1
Problem set 1 (Microphysics)
HT 2004

Please solve the following selection of problems from the course book (Dyson & Williams). This will give you a bonus of 5% on the final exam, if at least 80% of the problems are solved correctly. Write down every step in your line of thinking and state assumptions etc. The solutions should be handed in by 2004 12 01.

- Chapter 2: Problems 4 and 6
- Chapter 3: Problems 1, 6 and 7
- Chapter 4: Problems 2 and 4
- Chapter 5: Problems 1, 4, 5 and 6
